

22 February 2022

Dear Pride/Quantum Dealers,

In line with the substantial price increases of raw materials, international shipping, Petroleum, and general increases to inflation being seen in Australia and around the world, we regret that we have no alternative but to implement a 5% price increase effective May 1, 2022 (Pride and Quantum will be honouring all special pricing and previously quoted orders received before May 1, 2022).

The price increase is applicable to all Quantum and Pride retail products, parts, and accessories across the range excluding lift chairs.

Every effort continues to be made to maintain the high levels of continuity of supply that we have maintained throughout the pandemic, which comes at significant extra cost to Pride as we continue to support our highly valued dealer network.

We thank you for your understanding and ongoing support. Should you have any queries or concerns, please don't hesitate to contact us.

Yours sincerely,

Matt Herbert  
Director Sales & Marketing
